

PLENTY OF RUMORS BUT FEW FACTS

Latest Certain News From
Pekin is Under Date
of July 6.

GLOOMY DOUBTS GROW

Report That Foreign Ministers
are on Way to Tien Tsin
Under Escort.

WORLD IS WAITING TO HEAR

Tien Tsin, July 26.—[Special Cable
gram]—It is reported here that the
Foreign ministers have left Pekin for
this city under the protection of Jung
Lu, commander-in chief of the Imperial
Chinese army.

London, July 27.—[Special Cable-
gram]—A dispatch to The Mail from
Shanghai, dated today, brings the latest
authentic news concerning the situation
in Pekin. British Minister MacDonald
in a letter dated July sixth, just received
at Shanghai, says:

"We are receiving no assistance from
the authorities. Three legations are
still standing including the British. We
also hold part of the city walls. The
Chinese are shelling us from the city
with three inch guns and some smaller
ones which they use for sniping."

"We may be annihilated any day.
Ammunition and food is scarce and we
would have perished by this time only
that the Chinese towards have no or-
ganized plan of attack."

"If not pressed we may be able to hold
out for a fortnight or longer; otherwise
not more than four days at the longest."

"I anticipate only a slight resistance
to the relief force which I advise ap-
proaching by the Eastern gate or by the
river."

"Our losses until today are forty
killed and eighty wounded."

Reported Safe on July 15
Berlin, July 27.—[Special Cablegram]
—The German government has reliable
information from Pekin brought to Tien
by a servant of the late Baron von Kett-
ler, that the legations were still safe on
June 15. They were being hard pressed
by the Boxers under Tuan, but Prince
Ching heading the Imperial troops is
said to be doing all in his power to pro-
tect the foreigners.

Revolted Tortures of Women.
London, July 27.—The Hong Kong
correspondent of the Daily Express
wires as follows under yesterday's date:
"An Italian priest has just arrived
here from the Hen Sien Fu in southern
Hu An, where the Italian bishop and
three priests had been massacred after
revolting torture. This took place on
July 4."

"Six hundred converts were massacred
after the women had been subjected to
hideous brutalities. Six other priests
fled to the hills, where they were proba-
bly killed."

"The priest who escaped had a perilous
journey to Hong Kong. He hid in a
coffin on board a river boat for seventeen
days."

"Two English missionary women,
Miss Whitechurch and Miss Searrell,
have been murdered at Hsia Oi, in the
province of Shan Si. Massacres are also
reported from Tai Yuan and Pao Fu."

To Oppose Advance of Allies.

Shanghai, July 27.—[Special Cable-
gram]—It is reported that the
Chinese troops who retreated from Tien
Tsin are concentrating at Yang Tung
on the railroad to Pekin, where they
will oppose the advance of the allies.

Cabinet Considers China

Washington, July 27.—[Special Tele-
gram]—The cabinet met at noon in Sec-
retary Hay's office. It was a closed
meeting. Root stated that information
from Remy gave the total number of
foreign troops in China at twenty-eight
thousand, and that Remy's dispatch
contained nothing to indicate when the
advance on Pekin would be made. He
also said no word had been received of
the arrival of the Fourteenth infantry.
Reilly's battery and the Fifth artillery
at Taku.

Commander Wilde cables from Kure
saying the Oregon is docked and her
structural strength is intact.

Defending Themselves July 15.

Berlin, July 27.—[Special Cablegram]
—A dispatch from Tien-Tsin July 24,
says it is reported there that a mes-
senger who left Pekin July 15, brought
news that the Prince of Ching's soldiers
had been fighting those of Tuan and
the former was defeated. When he
left the foreigners were defending them-

selves in the northern cathedral near the
forbidden city.

Seen Alive July 23.

Boston, July 27.—[Special Telegram]
—The American Board of Commissioners
received a cablegram from Rev. Henry
P. Porter at Jan Chanag, Sh n urg, who
escaped to Chee Foc, reading: "All in
Pekin, Alive." Dated July 23. No in-
formation is given as to the evidence this
is based on.

Kaiser Charges His Troops.

Berlin, July 27.—[Special Cablegram]
—Four thousand German soldiers sailed
from Bremerhaven for China today.
The emperor addressing them said:
"Your task is one of revenge, revenge
for the murder of my ambassador and
the violation by the Chinese of the
rights of hospitality. Give no pardon,
and make no prisoners. Manage your
arms so that within a period of a thou-
sand years no Chinaman will risk even to
look with an evil eye on a German. Open
the way to civilization now and for ever.
Comrades, good bye."

LI HUNG CHANG AT THE HELM.

Slippery Celestial Will Act as the Agent
Between the Powers.

Washington, July 27.—Li Hung
Chang is believed to be the agent chosen
by the Pekin authorities to act as the
intermediary between the powers and
the government of China. The Imperial
edict calling him from his post at Can-
ton came about the time of the supposed
change of policy at court.

Instead of going on to Pekin, he has
stopped at Shanghai, where he is in a
much better position to communicate
with the outside world and make an
impression upon the powers than he
would be at the capital.

Li Playing a Strong Hand

Earl Li is already playing a strong
hand so far as his part of the enterprise
is concerned. He has informed the
world that the legations are safe, but
that a forward move of the allied troops
would surely sound their death knell.
In this he may be right.

It is suggestive, too that the new vic-
eroy of Canton, Earl Li's successor and
protégé, is put forward to make a rather
blatant intimation that an invasion by
force would be met with force—an intima-
tion, by the way, which an Imperial
edict had already issued in a more
guarded form.

Plausible Hostage Theory.

These are some of the facts which tend
to give plausibility to the hostage the-
ory, and it is understood that our gov-
ernment has further information of a
corroborative character, which it is not as
yet willing to make public.

It is known, for instance, that Consul
Goodnow at Shanghai was ordered by
the state department to call upon Li
Hung Chang, and that after his inter-
view Mr. Goodnow wired the department
at considerable length today, the dis-
patch being kept secret.

Lost None of Their Cunning

If this theory shall turn out to be the
correct one, it will show that Chinese di-
plomacy has lost none of its cunning.
None but the Manchu dynasty could
have devised and so skillfully carried
out a policy of placing the foreign en-
voys at the mercy of a mob and then
turning to the civilized world and say-
ing:

"Call off your troops and promise to
let us alone and we'll save your men,
women and children. If you try to
rescue them yourselves they will be
killed and we shall make war upon your
forces besides."

War If They are Dead.

The next step in the program, un-
doubtedly, will be a move by the Pekin
government to convince the world that
the ministers are actually alive. Thanks
to the tactics of Secretary Hay, it has
now reached a point where it must do
this or force the world to the conclusion
that the ministers are dead and this
latter means war.

After Minister Wu's call at the state
department today it was said another
dispatch from Mr. Conger—this time an
unmistakable one—could be expected
not later than next Monday.

Most Delicate Problem

If the Chinese government proves
that the envoys survive, the Christian
powers will be confronted with a most
delicate problem:

Shall they abandon the proposed re-
lief expedition, trust to the Pekin gov-
ernment to escort the ministers to Tien
Tsin, give pledges as to taking no
provinces for indemnity.

Or shall they risk all—the lives of
their citizens and war with China—upon
the hazard of an advance in force?

Orange-men Elect Officers.

New York, July 27.—The supreme
grand lodge of the United States of the
Loyal Orange Institution elected the
following officers: Supreme grand
master, the Rev. George T. Lemmon,
Vermont; supreme grand deputy mas-
ter, John Beattie, Ohio; supreme grand
secretary, Robert W. Johnson, New
York; deputy supreme secretary, James
Chambers, Massachusetts; supreme
grand treasurer, Robert T. Miller, Il-
linois; supreme grand chaplain, the
Rev. Jacob Mundy, Ohio.

CENSUS FIGURES SOON AVAILABLE

FORECAST IS POSSIBLE WITHIN
THE NEXT FEW DAYS.

The Only Large City Yet Footed Up is
Washington—Punching and Tabu-
lating Machines are Kept Busy—
Cincinnati Will be the Next City
Out of the Box.

Washington, D. C., July 27.—Within
the next two or three weeks enough cen-
sus figures will be compiled to justify
some guesses as to the total population
of the country. When cities like New
York, Philadelphia, Chicago, New Or-
leans, and San Francisco have been
counted up it will be possible to secure
an average of the gain in population in
the large center, and this, coupled with
a few agricultural counties here and
there, with a sprinkling of small towns,
will enable the statisticians to make a
pretty accurate guess of the ratio of the
gain over 1890.

The only large city yet footed up is
Washington, and here the ratio of gain
was smaller than in the decade from
1880 to 1890. Those who have been
studying the figures assert that the
same ratio will hold good throughout
the country.

From 1880 to 1890 there was no time
of peculiarly marked financial depression,
while there had been hard times during
nearly half of the last decade.

If the figures already learned at the
census office could only be lumped they
would go far toward settling the ques-
tion of population, but they represent
enumerators' districts and not the whole
towns or counties.

The punching and tabulating ma-
chines have already counted up no less
than 9,000,000 cards, representing that
many of the population, for each card
contains the record of one human being,
old or young, black or white, male or
female, and all the characteristics of that
person from a census standpoint are
punched into the bit of pasteboard.

Director Merriam now has in his cus-
tody no less than 32,000 separate por-
tfolios from enumerators, representing a
good deal more than half of the popula-
tion, but there are 20,000 portfolios still
out, leaving gaps in all the large cities,
including Chicago.

The chances are now that Cincinnati
will be the next city out of the box.
The work of taking the census of popu-
lation is sure to be completed before
Congress meets. The census office al-
ready has, besides this work, received
300,000 schedules of manufacturing
establishments and 3,000,000 agricul-
tural schedules.

It is no little job to pay off the enu-
merators. About 5,000 have been taken
care of and the rest are being paid at
the rate of 1,000 per day. It will be
the end of September before the rest
are all paid off.

Those whose sheets were free from er-
ror were the first put on the pay roll,
while those who made mistakes will
have to wait longer for their money.
As the enumerators are paid by the
number of names they took, instead of
by the time they were occupied, they
cannot be paid off until their schedules
are all checked up.

REST FOR THE CLERKS

Milwaukee Stores Will Be Closed Sat-
urday Afternoons Throughout
August and September.

Milwaukee, Wis., July 27.—From a
business standpoint Milwaukee is to be
a "closed town" on Saturdays during
August and September, as a result of
the work of the Consumers' league,
which has been campaigning among the
retail merchants and others during the
past thirty days, urging them to close
their places of business on Saturday
afternoons, thus giving clerks and other
employees a half holiday during the warm
weather.

It is estimated up to today that fully
3,000 men and women, who have here-
tofore worked Saturday afternoons, will
not return to work Saturdays after 1 p.
m. All of the large dry goods stores
which do a thriving business on Satur-
days, and some of which now keep open
until 9 o'clock Saturday nights, have
agreed to close their doors the next
two months at noon at Saturday. The
league is still at work and the officers
say they are encouraged to believe that
many more storekeepers will sign the
agreement the next few days.

SAYS BRYAN WILL BE ELECTED

And the Jury Promptly Declares Mis-
guided McNulty Insane.

Chicago, July 27.—Thomas McNulty
thinks Bryan will be elected president,
and as soon as his sister Bridget heard
him make this statement, embellished
with a few florid expressions, she
thought it time to call in the doctors.
The medical examination resulted in
the appearance of Thomas before the
insane court yesterday. His sister de-
scribed his actions and peculiar utter-
ances, telling, among other things, how
he persisted in declaring that the "Em-
peror of Lincoln" would get more votes
than President McKinley.

After hearing the testimony the jury
found the misguided McNulty mentally
deficient, and the court ordered him
committed to an asylum.

FIGHT WILL AID CHINA AND WORLD

DR. HILLIS SAYS UPHEAVAL
WILL BE A BLESSING.

New Regime is Born—No Mourning
For Martyrs—Men and Women
Who Die in the Faith are Sons of
Good Fortune and Daughters of
Victory.

Chicago, Ill., July 27.—"I be-
lieve the Chinese situation to be
the greatest upheaval in modern times.
Think of 350,000,000 of people that
deny the schoolhouse to their daughters,
strangle unwelcome babies, bind the
feet of their women and make drudges
and slaves of their daughters. Think
of these millions doomed to unending
plagues of typhus and typhoid and ter-
rible fifth diseases through eating rats,
mice and vermin."

This from Dr. Dwight Hillis as he sat
in the parlors of the Union League club
yesterday afternoon, discussing various
questions of national and world-wide
importance.

Means China's Awakening

"Those who have carefully studied
the Chinese situation understand that
the present revolution means the awaken-
ing of China not less than its political
disembodiment," continued Dr. Hillis.
"Taken all in all, the upheaval is the
most unimpaired good that ever occurred
in the history of that people. It is the
old, old story of the struggle between
the old regime and the birth throes of
the new."

"A few years ago in Milwaukee, in a
German neighborhood, the young people
held a meeting insisting upon the
preaching and teaching being done in
the English language. The older peo-
ple opposed the movement, and insisted
that the preaching and teaching be done
in the German language, and an em-
bryo riot was developed. The condi-
tion in China is identical."

Right to Save Mankind.

"I have read the article by Professor
Stevens of the University of Chicago.
I do not understand what the professor
means by saying that the missionaries,
physicians and educators are agents of
disorder and should have been mobbed
out of the country."

"Of course if a Chinaman wants to
eat vermin, wear a pig tail that his con-
quering Tartar imposed upon him as a
badge of servitude and wants to strangle
his babies and bind the feet of his women
he has a right to do so. Every man,
even this professor, has the right to be
ignorant and make a fool of himself if
he wants to, but this has nothing to do
with another man's rights to attempt to
make a wise man of himself, if possible.
If the Chinaman is born with the inalien-
able right to go to hell if he wants, the
scholar is born with the right to try to
lift him up to heaven also."

Prefers Swords to Microbes.

"I have no sympathy with those who
are shedding tears over the death of
some of our missionaries and the prob-
able death of many others. The blood
of the martyrs is the seed of the church.
The man who loves his fellows would
far rather die through bullets in China
than at home through the bacilli of ty-
phoid. For myself, I would prefer a
sword to microbes. Those who have
died to usher in a new era for China are
not to be counted victims of fate but
sons of good fortune and daughters of
victory."

THREE TO ONE ON MCKINLEY

Wormser Bet \$1,500 to \$500 Put Up For
Bryan—Other Money Offered.

New York, July 27.—Louis Wormser
bet \$1,500 today that McKinley would
be elected, against \$500 put on Bryan
by J. J. Judge, an outside broker. Mr.
Judge later in the day said that he was
handling on commission money to be
bet on both candidates, and that he had
at present \$2,400 to bet against \$10,000
or at odds of 5 to 25, that Bryan would
be elected, and a practically unlimited
amount of money to bet upon McKinley
at odds of 3 to 1.

SOLDIERS THINK THEY MUST KILL

Unnecessary Slaughter Alleged Against
the American Troops in the Philip-
pine Islands.

New York, July 27.—[Special Tele-
gram]—The World prints a Hong
Kong letter of June 12, declaring that
the American soldiers in the Philippines
are indulging in unnecessary slaughter
of the Filipinos. It is alleged that or-
ders from Manila were sent out declar-
ing that no more prisoners were wanted
and the soldiers interpret this as meant
to kill. When the Americans are am-
bushed and the innocents responsible
can't be found, a number of unruly male
inhabitants are lined up and shot, and
an official report sent that the enemy
was repulsed with great loss.

Bryan's Notification Speech.

Nicola, Neb., July 27.—[Special
Telegram]—Bryan's notification speech
is about finished and aggregates about
ten thousand words. Bryan said this
morning that the platform declared
imperialism the paramount question and
will be the only one dealt with at any
length in the speech.

WOULD NOT WHIP HUSBAND.

Wife Failed to Take Advantage of the
Permission of a Court.

St. Louis, July 27.—A great crowd
of people attended Judge Snider's court
this morning, drawn thither by curiosi-
ty to see whether a wife would be will-
ing to publicly horsewhip her husband
and thus save him from a two months'
sentence in the workhouse. But the
woman's heart failed her. Mrs. Noreth
did not appear, and George Noreth, her
husband, was sent to the workhouse in
a special conveyance provided by the
court, to serve his fine of \$25 and
costs, because of his conviction on the
charge of wife beating yesterday.
Noreth was given the privilege of choos-
ing between imprisonment and a public
whipping by his wife. At first he said
he would take the workhouse, but a few
hours in the holdover caused him to
change his mind. After deliberation he
said he believed he would prefer the
whipping.

Noreth is employed in a brewery and
lives with his wife and two children at
170 Dorcas street. He is 33 years old
and has been married ten years. Mrs.
Noreth testified that he had beaten her
severely. She bore the marks of the
whipping. Noreth admitted that he
had whipped his wife, and justified his
acts on the ground that Mrs. Noreth
had allowed the supper to burn.

FORTY LIVES ARE LOST

Steamer Florence III. Reported Cap-
sized on Lake La Barge, Alaska,
During a Heavy Storm.

Victoria, July 27.—A catastrophe is
reported by passengers of the Cottage
City, which arrived here from Alaskan
ports this afternoon, as having taken
place on Lake La Barge. The news
lacks confirmation, and is given as the
passengers heard it at Jureau.

The stern wheeler Florence 111.,
operated and partly owned by Captain
Barrington, was caught in a storm on
the lake and was capsized. There were
150 passengers aboard, and 40 are said
to have lost their lives. The steamer
Humboldt brought the news to White
Horse.

H. Knapel, a Dawson butcher, who
was one of the wealthiest of Klondikers
aboard the Cottage City, and several
other passengers gave the news.

MOB STILL RIOTS IN NEW ORLEANS

Broke the Windows of Hannah Maber,
a Negress, and Shot the Woman
to Death.

New Orleans, July 27.—[Special Tele-
gram]—Continuing its work the mob
this morning en route to the jail where
they clamored for the negro Charles
whom they supposed was confined there
broke the window in the room of Han-
nah Maber on the river front and shot
the negress to death. When the police
arrived all had disappeared. The mayor
this morning declared the situation well
in hand but isolated cases of disorder
are of hourly occurrence. A large num-
ber of arrests have been made by the
militia and police.

STORK TO VISIT THE DEWEY HOUSE

New York, July 26.—[Special Tele-
gram]—A Washington special to the
Press says society is busy with a story
of an expected visit of the stork to
the Dewey home.

TUNNEL INTO PRISON

Hole Over 200 Feet Long Found Lead-
ing Under a Pennsylvania Pen-
itentiary at Pittsburg.

Pittsburg, July 27.—Chicago anar-
chists are supposed to be at the bottom
of a plot for tunneling into the Allegh-
eny penitentiary which was discovered
yesterday. The police believe they were
seeking to rescue Henry C. Bergman,
who is serving a sentence of twenty-two
years for shooting H. C. Frick during
the Homestead strike.

A tunnel over 200 feet long leading
under the prison is in existence, but the
makers have escaped though the police
believe that one of their number is bur-
ied at the far end of the tunnel as the
result of the cave in. Complicated
processes were used to build it, includ-
ing electric fans, and constant piano
playing intended to drown the work.

Miss Letitia McCarty, 29 Sterling
street, Allegheny, is the person who
discovered the plot.

A BOLD KANSAS TRAIN ROBBER

Atchinson, Kas., July 27.—[Special
Telegram]—At midnight at the Missou-
ri Pacific passenger left the depot a
masked robber climbed into the express
car, covered the messenger and demand-
ed the contents of the safe. Messenger
Kreiss convinced him that the safe was
locked. The robber took a silver watch
from a package, pulled the air, and step-
ped off west of town. He was colored.
A negro named Davis has been arrested.

ADAMS SELECTED FOR CHAIRMAN

He Will Preside at State
Convention in Milwau-
kee, August 8.

GOV. SHAW MAY SPEAK

Chairman Treat Outlines Pro-
gram for Republican Meet-
ing Week After Next.

WHO WILL SUCCEED TREAT?

Chicago, July 26.—H. C. Adams, Wis-
consin Dairy and Food commissioner,
was in the city today and was a visitor
at the headquarters of the National Re-
publican and Congressional committees.
Friends of Mr. Adams said that he had
been selected by State Chairman Treat
to preside at the coming state conven-
tion in Milwaukee on August 8. When
Mr. Adams was seen he declined to dis-
cuss the report, but from other sources
which may be considered trustworthy it
was learned that Mr. Adams had been
asked to accept the chairmanship of the
convention, and that he had accepted.

Indicates Selection of Adams

Milwaukee, July 27.—"It will probab-
ly be several days before I shall be
ready to make my announcement of
temporary chairman of the convention,"
said Chairman J. B. Treat of the Re-
publican state central committee yester-
day, "but I can say it will be a La-
Follette man, one who is thoroughly in-
accord with the candidate who will un-
doubtedly be nominated. The place has
been offered and accepted, but I am not
ready to make the announcement. A
harmonious convention is what we are
after and I am sure we shall have it."

Address by Gov. Shaw of Iowa.

"I am going to make an effort to
secure Gov. Shaw of Iowa, to make an
address before the convention, and I am
fairly confident of being able to get him.
I think it would be an excellent idea
to have a person so generally respected in
the party and such a fluent speaker as
Gov. Shaw to address the convention
on issues of the campaign, and several
persons whom I have questioned on the
subject seem to think so, too. My plan
is to have the governor, if he can be
prevailed upon to come, speak on the
evening of the first day."

May Get One Cent Fare.

"The convention will assemble at noon
Aug. 8 and devote the afternoon to pre-
liminary work and then adjourn until
following morning, with the intervening
evening reserved for the speech of Gov.
Shaw. With the speech of the chair-
man and that of Gov. Shaw the respon-
sibilities of the present campaign can be
brought clearly before the minds of the
delegates and serve as a fitting ground-
work for the task before them."

Mr. Treat plans to go to Chicago to-
day to see officers of the Western Pas-
senger association in regard to one-fare
rates which he hopes to get for the con-
vention delegates.

Successor to Chairman Treat.

During the past few weeks, the names
of several well-known local republicans
and active La Follette men have been
mentioned in connection with the posi-
tion of chairman of the republican state
central committee, but these announce-
ments, coming from various sources,
have always been without authority and
without the consent of those whose
names are thus used. Prominently in
connection with the position, the names
of E. L. Philipp, Theodore Kronshage,
Jr., and Charles F. P. Pullen have from
time to time been used, but not one of
them has ever announced himself a
candidate, or admitted that he would
be.

statute creating the tax commission,
which statute requires an investigation
by said commission of the system of

Given by the Van Dyke & Eaton Company at the Turner Grand

"For the fifth time," says a Davenport, Iowa, paper, "the Van Dyke & Eaton company has played in this city, a week's stand each time, and for the fifth time it has packed the houses every night of its stay in the city. During the entire week that has passed there has not been a single night that the Turner Grand has not been packed to the door."

"There is not a company that visits the city of Davenport that is more popular than the Van Dyke & Eaton company. They are liked because they are faithful in their work and give a legitimate performance. Their repertoire consists of good productions, up to date and well staged."

"Another feature of the company is the fact that they are specialists, and this enables it to give continuous performances each evening. There is no waiting between the acts, but every moment of each evening is taken up both in clear and entertaining work."

The company will open a week's engagement at the Myers Grand next Wednesday evening, August 30. The box office opens tomorrow morning at 10 o'clock.

MARTIAL LAW IS DECLARED.

Troops Called Out at New Orleans
to Quell Race Riots.

LIST OF DEAD AND WOUNDED.

Four Persons Killed and Twelve Hurt—
Police Have Not Yet Captured Desperado Charles, Who Killed Officers—
Col. Wood Commands the Soldiers.

New Orleans, La., July 27.—From Jackson barracks to Southport, a stretch of fifteen miles in the crescent of the great river, New Orleans is under martial law. Every saloon is closed, every gun store locked, and the dance halls in the French quarter are surrounded by men carrying rifles. Not since 1876, when the citizens and the carpetbaggers fought on the levee, has New Orleans witnessed the scenes that have been enacted here. Every company of state militia quartered in the city is on the streets by special order of Governor Heard, issued to-day at noon. Mayor Capdevielle called for citizens to aid in restoring order, and 500 men responded. They were mustered in at Lafayette square, in front of the public library, and were armed with rifles and belts of cartridges. Colonel Elmer E. Wood, who commanded the Second Louisiana volunteers in the Spanish war, was placed in command. A number of his underofficers took captaincies, and the citizens were mustered into squads of twenty. There are 3,000 men under arms marching on Canal street and through the disturbed districts, bent on maintaining the law and protecting the blacks. The state arsenal is being guarded to-night by a platoon of guards from the Fitzpatrick zouaves.

Mayor Capdevielle issued a special proclamation at 6 o'clock ordering all persons to keep off the streets and requesting that women and children not venture downtown at night. As a result there wasn't a woman to be seen on the streets. This is the worst race riot New Orleans ever experienced and business is paralyzed.

The list of the killed and injured is as follows:

Killed—Unidentified negro, shot to death at the corner of Villere and Howard streets. Taylor, Louis, colored, shot to death at the French market. Thilo, Baptist, colored, 75 years old, shot at the corner of Kelerree and Dauphine streets. Unidentified negro, riddled with bullets at Decatur and St. Philip streets.

The wounded are:
ALBA RUFFIN, Pullman car porter, thought to be from Chicago; cut and beaten on the head.

J. CLUNY, white, conductor Peters avenue car; shot in the foot during attack on car.

F. C. DAVIS, white, motorman Peters avenue car; shot in the foot.

FRANK SHEPHERD, white; accidentally shot in the arm.

BESTHER FIELDS, negress; brutally beaten while standing in doorway.

OSWALD MMAHON, negro boy, twelve years old, shot in leg and back.

GEORGE MORRIS, negro; watchman; two shots in back and stab wounds; will die.

THIS DAY IN HISTORY.

1675—Turkish famous French marshal, was killed near Solbach, in Alsace.
1659—Battle of Killbuck: the Highlander Jacobites defeated the troops of William III.
1777—Thomas Campbell, poet, born; died 1844.
1802—The American steamer Golden Gate, plying between San Francisco and Panama, was burned at sea; 150 lives lost; \$1,400,000 in gold sunk.
1860—The laying of the French Atlantic cable was successfully completed amid great rejoicing.
1870—Mme. Marie Rattazzi, noted Italian actress, died at Florence.
1883—Montgomery Blair, postmaster general in Lincoln's cabinet and a very prominent Unionist, died at Silver Springs, Md.; born there 1813.
1898—Intense heat throughout the United States; many fatal sunstrokes.

In their souvenir edition the Racine Journal prints a fine portrait of Congressman H. A. Cooper, with the following sketch:

Hon. H. A. Cooper is without doubt the most prominent and influential man in this country. He is a representative of our first fathers and was born in Spring Prairie. Mr. Cooper enjoyed the best educational advantages and was fitted for a business career. He commenced the practice of law early in life and has held many influential offices.

In 1880 he was elected district attorney for Racine county, which office he held six years. In 1882 he was elected congressman from the First district, and has been three times re-elected and holds the honorable position today.

Hon. Mr. Cooper has done grand work for this district, especially for Racine and its harbor. Politically he has always been very prominent and is one of these genial, courteous and affable young men who has won prosperity and the good will of the people without effort.

A La Crosse newspaper man interviewed Robert M. La Follette during the latter's visit to that city, and a dispatch give the following facts:

Regarding alleged combination between him and the so-called old machine, Payne and Pfister, he denied that one had been made or existed.

"The withdrawal of six candidates is something no combination with me has brought about. I am sending from Madison an appeal to the voters of Wisconsin, advocating the Australian system in primaries, making the organization of a machine impossible."

"I am not running for governor simply for the salary, as I have been offered better things in Milwaukee. But my ambition is to have placed on the statute books laws which I would rather leave to my little son than all the riches I could amass by this reported combination with the machine."

Madison State Journal—It is understood that Mr. La Follette's active workers are taking pleasure in joining in the movement to return Hon. John M. Whitehead to the state senate. A machine that does things of this sort may fairly ask for suspension of judgment.

The attention of the anti-republican "republicans" is called to the experience of the young man who stuck his finger into the Mississippi river and then looked for the hole.

The men who started the story that the new railway trestle was too high is probably a relative of the inspired genius who insisted that it was too low.

The daily dispatch that a La Crosse church was struck by lightning, did not arrive today—probably delayed in transmission.

The Chinaman can still be identified by the same old "streak of yellow in him," as the saying goes.

The Augusta, Wis., Eagle, a weekly paper, is offered for sale for \$900.

Beloit doesn't appear to cotton very much to electric railways.

A Racine alderman Link is missing.

Forty Miles Without Wire.
Paris, July 27.—The latest experiments in wireless telegraphy on cruisers of the northern squadron, between Cherbourg and Brest, resulted in perfect transmission at a distance of forty miles. The previous record in France was thirty miles.

Serious Fire in Medford, Wis.
Medford, Wis., July 27.—The Marcus mrecantile block was destroyed by fire at noon. The fire threatened to destroy ten other business houses and aid was summoned from Stevens Point and Whippewa Falls.

ENGLAND IS CONFUSED.

The News from South Africa Is Not at All Satisfactory.

London, July 27.—The situation in South Africa is most confusing, and veterans are shaking their heads over it, but apparently Lord Roberts has decided that the best method of suppressing guerrilla warfare is to follow the railway toward the entrance to the Lydenburg district, and to cut off Boer communications with the only remaining base of supplies at Delagoa bay. The plan is a bold one, since commands of raiders are prowling about in many directions, but Lord Roberts counts, without doubt, upon effective support from Sir Redvers Buller, and also upon the paralyzing effect of a renewal of the advance toward Mr. Kruger's last stronghold.

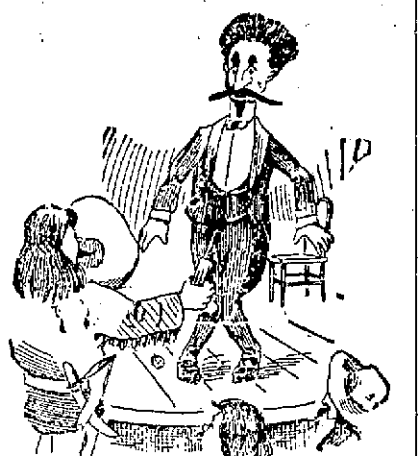

Lord Roberts reports to the war office, under date of Balmoral, July 25, as follows: "We marched here yesterday without seeing the enemy. The Boers on July 24 engaged French and Hutton six miles south of Balmoral. While Anderson's mounted infantry attacked the Boers' right, French made a turning movement around their left. Seeing their retreat threatened, the Boers broke and fled. French and Hutton followed, and proposed to cross Oliphant's river today at Naauwpoort. Our casualties were one wounded."

German Press Attacks England.
Berlin, July 27.—The German press complains of what one paper calls the "growing brutalization of the South African war." Professor Von Rohland in the Deutsche Juristenzeitung deplores the "wounds which England's procedure against the Boers has made in the world's sense of humanity in war, as expressed at The Hague conference."

Assassins' Plans Foiled.
San Domingo, July 27.—A plot to assassinate the governor of Santiago, Ramon Caceres, has been discovered, and twenty-five of the conspirators have been imprisoned. Several military officers are involved. The accused will be tried by court-martial. President Jimenez is visiting the interior. The country, generally, is quiet.

GOOD EXHIBITION OF GOLF PLAYING

W. V. HOARE BEATS BOGEY AND
TWO BEST LOCAL PLAYERS.

First Round in the Match Play For the
Valentine Medal—Miss Kate Fifield
Wins the Putter in the Ladies
Novice Match—More Matches Being
Arranged.

Members of the Mississippi Golf club,
that attended the matches held on the
grounds yesterday afternoon, were given
an exhibition of golf playing seldom
seen on this course.

W. V. Hoare, the champion long dis-
tance driver and professional golf play-
er, showed the members of the club what
it is possible for a crack player to ac-
complish. Mr. Hoare first played an
exhibition round to get in shape for his
match, and beat bogey by two strokes,
making the round in 37. Later in the
day he played a nine hole match against
the best ball of F. E. Fifield and J. P.
Baker, winning one up. The scores in
the exhibition round were as follows:

Hoare..... 6 3 3 4 3 5 5 5-37
The score in the match was as follows:
Hoare..... 6 4 3 4 4 5 4 7-44
Best ball..... 6 4 8 6 5 5 3 6-46

The first round of the match play
for the Valentine medal resulted as fol-
lows:

Miss Jennie Baker beat Miss Agnes
Shumway, 4 up and 3 to play.
Mrs. C. L. Fifield beat Mrs. I. T.
Wortendyke, 4 up and 2 to play.
Miss Belle MacLean beat Catherine
F. Field 4 up and 3 to play.

Mrs. W. A. Jackson beat May Valen-
tine 6 up and 4 to play.

Mrs. F. E. Fifield and Mrs. Shelly and
Helen Fifield and Mrs. George Under-
hill will play off their match Monday
afternoon.

In the ladies match for novices the
putter offered as a prize by J. P. Baker
was won by Miss Kate Fifield by a score
of 71. The scores of the ladies are as
follows:

Miss Kate Fifield 71, Mrs. F. L. Smith
83, Mrs. Wilson Lane 116, Mrs. H. G.
Carter 86, Mrs. Ed. F. Carpenter 80,
Miss Josie Carle, 86.

After the matches were finished a
basket picnic supper was held about one
hundred people being served. Later in
the evening dancing was indulged in at
the club house.

The Belmont tournament for profes-
sionals which starts tomorrow bids fair
to be the most successful one yet held
in the West. Thirty-seven profession-
als, connected with clubs in Illinois, Wis-
consin, Ohio, Michigan, Iowa and Minn-
nesota are entered and the contest for
the \$350 in cash prizes and gold medals
promises to bring out some great golf
on the links near Chicago.

Willie Hoare, who played over the Sin-
issippi course yesterday is one of the
entries and for that reason he had to cut
his visit to this city short; and left on
the early train for Chicago.

A number of matches are being ar-
ranged by the handicap and games com-
mittee with neighboring clubs to take
place on the home grounds within the
coming month. A game with Winona
is to take place about the 20th of Au-
gust. The date for the game with Ap-
leton has not yet been fixed.

TAYLOR'S PARDON SHOWN.

Document Found in Powers' Pocket Be-
comes Evidence in Trial.

Georgetown, Ky., July 27.—Walter
Bronston, a Lexington attorney, who
assisted in the arrest of Caleb Powers
and John Davis, at Lexington, was
called as a witness in the Goebel trial.
Powers and Davis were disguised as
soldiers and were both armed. Witness
identified them to the police officers.
After a forcible arrest, Powers was
taken to jail, where the pardon granted
him by Gov. Taylor and \$1,300 in
money were found in his pockets. The
pardon granted Powers by Gov. Tay-
lor and attested by the defendant him-
self was then exhibited to the jury.
Bronston told of a conversation with
Powers after the arrest, in which Pow-
ers, referring to the pardon, said: "I
know this looks a little bad, but we
were making our way to a place where
the pardon would have been recog-
nized."

Dennis Bristow's Statement.
Muncie, Ind., July 27.—Ross H. Cow-
an, president of the Neely Printing
company, has issued a card denounc-
ing the statements of Assistant Post-
master-General Bristow. He states
that the records show that there was
made a legitimate sale of the printing
office from Neely to him, and further-
more, that printing bills for the Cuban
government ordered through Neely
were not paid twice. He says that owing
to a clerical error Rathbone paid
one bill for \$163 twice, but that this
was long since rectified promptly
when Rathbone discovered the mis-
take.

their services for the benefit dance to be
given in the Armory hall, Wednesday
evening, August 1. The armory has
also been donated and it is hoped that
a large sum of money can be secured for
Seaman D. Peterson. Tickets will be
but 50 cents.

The public library board have re-
ceived an appeal for reading matter
from the Wisconsin soldiers in the Phil-
ippine Islands. If citizens having books
or magazines which they are willing to
donate for such a purpose will leave
them at the library before Saturday,
Aug. 4, the board will see that they are
forwarded to their destination.

RINGLING BROTHERS' circus did an
immense business in Madison yesterday.
Excursion rates were given by the rail-
roads, and people from all the surround-
ing towns were in attendance. There
was such a crowd at the afternoon per-
formance that the hippodrome feature
had to be abandoned, seats being placed
in the ring used for that feature, to ac-
commodate the crowd.

Tusculum to Penitentiary.
Pittsburg, Pa., July 27.—Authorities
discovered through accident a plot to
release prisoners confined in the west-
ern penitentiary in Allegheny by tun-
neling into the institution, chiefly with
a view to liberating Alexander Berk-
man, the anarchist, who shot H. C.
Frick during the Homestead strike in
1892. The tunnel extended from a de-
serted house across Sterling street, a
distance of over 200 feet, 150 feet being
inside the prison wall. The house was
recently sold to New York parties and
a small payment had been made on
account. The discovery was made by
the earth giving way from the recent
heavy rains.

Bryan to Rest Sundays.
Asbury Park, N. J., July 27.—Will-
iam J. Bryan has declined to deliver
an address at a national service to be
held at Asbury Park in the Beach
Auditorium some Sunday afternoon
next month. In his letter declining
the invitation, Mr. Bryan said: "Dur-
ing the campaign Sunday is the only
day I have for rest. Without that day
of rest I would not be able to under-
go the work of campaign. If I was to
surrender that day on one occasion I
would find it difficult to refuse other
invitations and I think it better to
adhere to the rule that I have hereto-
fore observed."

RUSTY NAIL WENT THROUGH HER FOOT

Painful Accident Yesterday to Mrs.
Louis Paul From a Nail Sticking
in a Board.

Mrs. Louis Paul of the town of La-
Prairie, met with an accident yesterday
that is liable to lay her up for some
time. Mrs. Paul was walking around
the yard near her home wearing a light
soled pair of shoes. She stepped on a
piece of board that had a rusty ten
penny nail driven through it and stick-
ing up ready to catch some one not
looking for danger.

The nail penetrated the left foot just
back of the toes, coming out through the
top of the foot making an ugly wound.
The injured lady was immediately taken
to the office of Dr. James Mills, who
dressed the wound and made the sufferer
as comfortable as possible.

The doctor hopes that nothing serious
will develop, the nature of the wound
and the rusty nail make it a difficult
case to tell what the outcome will be.

The Tobacco Market.

Conditions remain unchanged about
the tobacco markets of the state. Trad-
ing is now a rare occurrence in goods of
any description. While it is a season of
dull markets, business is exceptionally
quiet, both east and west.

Frequent rains are bringing along the
new crop surprisingly fast. Some of
the early fields are now showing the bud
and topping will commence the coming
week. Everywhere the crop gives
promise of a quick growth and large and
well matured leaf. It is a long while
since the crop showed up better at this
season of the year.

C. L. Culton reports the sale of 200
cases of old goods.

The shipments out of storage reach
675cs, 13 carloads, from this station to
all points for the week. Less than 125
cases of cigar leaf were exported from
New York since last report.—Edgerton

Gardner-Perl Wedding.

Bloom E. Gardner and Miss Henrietta
Perl both of the town of Janesville were
married Wednesday afternoon at 3
o'clock at the home of L. A. Gardner in
the town of Janesville. Rev. J. T. Hen-
derson of the Presbyterian church per-
formed the ceremony. A reception was
held by the happy couple from four to
five o'clock after which an elaborate
supper was served. The evening was
spent in dancing, Tuckwood's full or-
chestra furnishing the music. Mr. and
Mrs. Gardner were the recipients of
many handsome presents from their
numerous friends. They will go to
housekeeping at the home of L. A.
Gardner.

WAS HELD UP ON SOUTH RIVER STREET

HARRY J. SMITH ROBBED OF
\$12 50 LATE LAST NIGHT.

Two Highwaymen Stop a Student and
Force Him to Give Up All the
Money He Has in His Possession—
Police are on the Lookout for Bold
Robbers.

Harry J. Smith of Homer, Ill., a
young man attending Valentine's
School of Telegraphy, was held up on
South River street about 10:15 o'clock
last night by two men, and robbed of
\$12.50.

Smith was coming home from mak-
ing a call on a young lady in the
Fourth ward, and thought to make a
short cut to the east side of the river,
where he boards, and came down Center
street to River, where he turned north
toward Pleasant, at the corner of the
Janesville Machine company's building.

There were a number of freight cars
standing on the side tracks on South
River street and just after Smith turned
the corner two men stepped out from
between the cars, which stood close to
the sidewalk, and grabbed him by the
shoulders, one on each side of him, and
asked him for his money.

Smith said, "I guess you are mis-
taken in the man." The shorter one of
the men said, "Give me your money,"
and the other said, "Hurry up."

Smith reached down into his pocket
and handed them out \$12.50; a ten dol-
lar bill, a two dollar bill and a fifty cent
piece. They asked him if that was all
the money he had and he answered yes,
and they immediately let go of him and
started down River street on a run.

Smith went on up River street and
although he saw several men did not
mention the fact that he had been
robbed.

Smith describes the men as being a
tall and a short man, both dressed in
dark clothes and wearing slouch hats.
They did not strike him or offer him
any violence. They asked him for his
money and he gave it to him. One of
the men had a revolver in his hand, but
he did not attempt to use it or even
point it at him.

Smith did not inform the police of
his being robbed until this afternoon,
giving the men plenty of chance to get
away.

Chief Hogan was at the city lockup
at the time Smith said the holdup took
place, less than two blocks from the
scene. When asked by Chief Hogan
why he did not report at once to the
police Smith said he thought it did not
amount to enough to bother about. The
fact that he had been held up and that
the police would like to catch the men
never occurred to him. He only thought
of the loss of the money and that it was
gone and it would do no good to make
a fuss.

Chief Hogan thinks that local parties
are mixed up in the affair and that the
young man would not have been let off
so easy if it had been outside parties.
The place where the hold-up occurred is
but a block from an electric light,
and a block south of the Riverside
Hotel, but numerous box cars are al-
ways standing on the sidetracks, mak-
ing the sidewalk, any distance from the
road very dark, offering good hiding
places, and making it easy to stop a
man and get his money away without
being seen.

JOHN M. SAILER of Janesville has
been granted a U. S. patent on a feeder
and band cutter for threshing machines.

THE PROGRESS OF WOMAN.

A SYMPOSIUM BY
SUSAN B. ANTHONY, : : : MAY WRIGHT SEWALL,
SENATOR GEORGE F. HOAR.

Fifty Years of Work For Women.

By Susan B. Anthony.

At the beginning of my public work 50 years ago, like other women, I was interested in a variety of reforms which I confidently believed we should be able to accomplish. With the greatest zeal I plunged into the temperance movement. At that time the only organizations of women for any purpose were a few of what were called moral reform societies and in New York, Boston, Philadelphia and perhaps a few other cities, antislavery societies,

SUSAN B. ANTHONY.

a sort of annex to the men's associations. The temperance work was almost wholly in the hands of men, but women were beginning to organize small bands called "daughters' unions." These were violently antagonized by the masses of women themselves, who considered them wholly outside of woman's sphere. They were actively supported in this belief by the men, who insisted that it would take women out of the home and disrupt domestic life. This was especially true of the clergy, who, in addition, declared it to be in direct violation of the will of God and the commands of St. Paul.

But a few women believed that this work for the protection of the home was strictly within their proper sphere, and that they had a perfect right to organize and break the silence so long imposed upon them. But what was their amazement when, having accepted invitations to the men's temperance conventions, they were told that they "were invited there to listen and learn, not to speak." Although armed with credentials from their own societies they were refused recognition as delegates, shut out from all committees and, when they tried to plead their own cause, literally howled down with cries of "Shame, shame!" This happened not only once, but many times, the men engaging in it belonging to the highest positions in the church and state.

No advanced step taken by women has been so bitterly contested as speaking in public. For nothing which they have attempted, not even to secure the suffrage, have they been so abused, condemned and antagonized. In this they were defying not only the prejudice of the ages, but also what the world had been taught was a divine command. This was not because they advocated unpopular doctrines, but it extended even to the conventions of schoolteachers and to prayer meetings themselves. "I suffer not a woman to speak in public." This was the law and the gospel enforced by man.

The battle for this right has long since been won. She is welcomed on every platform the length and breadth of the land, and there is not a question which she is debarron from discussing. Indeed the assertion may almost be justified that the people find more enjoyment in listening to a woman than to a man. The temperance question has been virtually handed over to women. The emancipation of the slave, for which she pleaded so eloquently and sacrificed so much, was accomplished nearly 40 years ago. The number of women in organizations approximates the number of men, and they are working with just as much faith, courage and energy to accomplish their various objects. But they are striving with one arm in a sling. They are fighting without weapons, and, as the inevitable consequences, the results must be inferior to those accomplished by men, fully armed and equipped.

When I began reform work, like all women who undertake it, I expected immediate and complete success. I had not the least realization of the disadvantages under which women worked. My first lesson was the denial of my right to speak. The second came when I went before the New York legislature with a petition signed by 28,000 women asking for a "Maine law." Eight months of weary tramping up and down the state had been spent to secure these names, and when it was under discussion in the assembly one of the members said contemptuously:

"Who are the signers of this petition? Nobody but women and children!" It then came upon me with great force that if women's votes had contributed to his election and if they could defeat him when again a candidate he would not have treated their signatures with sneering disrespect. I saw in a flash the secret of woman's powerlessness, and I resolved then and there that my work henceforth should be to make her name worth as much as a man's on a petition to a legislative body.

With this one object in view I have labored for nearly 50 years, almost without giving the weight of my name, my voice or my pen for any other purpose. I never have wavered for one instant in my belief that in the ballot lies the supreme source of power. Its possession brings self respect to the individual and commands the respect of others. Rev. O. B. Frothingham said:

"Though a man may possess all the world deems most desirable and have not the ballot, he is sure of nothing, because he has not the power to protect that which he has. On the other hand, if a man has nothing and yet possess the ballot, he has all things, for he holds the key with which he may unlock every door."

When the great civil war broke out women consecrated their efforts to the duties which it brought. Until the close of the war I put aside all else and gave my services freely and willingly to help secure the emancipation of the slave. When this was accomplished and the war ended we turned our attention once again to the obtaining of freedom for ourselves.

We were defeated, and in 1870 had the bitter humiliation of seeing every class of men in the United States, native born or naturalized, created our political superiors while we were relegated to the plane of idiots, lunatics and criminals. It was only a short time until the plantation negroes were looking us in the face and telling us that women did not know enough to vote, just as the Huns and Poles, the Italian "daggers" and the naturalized sons of Russia have been doing ever since.

Every succeeding decade has beheld a larger and larger ratio of women joining the ranks of the educated, the wealthy and the leisure classes and has seen them utilizing this education, this wealth, their leisure, all their splendid powers, in the improvement of social conditions and the uplifting of humanity. During every one of these years the women of every state have petitioned their legislatures to confer upon them the franchise, which would infinitely facilitate their work. And all these states have petitioned every congress during this time to add a sixteenth amendment to the federal constitution which shall enable women to exercise their right to vote. Within these three decades the full suffrage has been granted in four states, but in 13 different elections it has been voted down. In nine of these campaigns I personally canvassed the states and gave from two to ten months of the most exacting labor.

In looking back over the last 50 years I see many gains which have come to women—indeed, a complete revolution in the status and condition. But in looking forward I ask myself this question: "How long must the greatest brains, the most commanding ability of the women of this country, continue to be absorbed in this struggle to secure their own freedom, the power to do their work, which the nation needs and which waits for them?"

Fitness of Women to Become Citizens From the Standpoint of Education and Mental Development.

By May Wright Sewall, President of the International Council of Women.

From the close of the Revolution we find all the distinguished American patriots and publicists expressing the conviction that a self governing people

MAY WRIGHT SEWALL.

must be an educated people. It is no longer to produce an educated ministry, but to insure educated citizens that schools are maintained and colleges multiplied.

The whole system of state universities, those institutions from which the

higher education of the entire west is mainly derived, is built upon the principle that not only the government is responsible for the elementary education needed by the humblest citizen to enable him to cast an intelligent vote, but that it is also responsible for providing opportunities for the more advanced intellectual development needed by the teachers, the guides and the leaders in all departments of life in their direction of public affairs.

In the latest report issued by the bureau of education the number of girls continuing in school long enough to complete the course of study in the secondary schools largely exceeds the number of boys.

The average length of time which girls spend in school exceeds by nearly three years the average length of time which boys spend in school, while the number of girls graduating from high school courses—those courses which include United States history and civics—government—is almost double the number of boys who graduate in the same courses. Thus at the present time largely more than one-half of the money spent by the governments, local and national, in support of free schools is used in the education of girls.

By what authority does the government tax its citizens to support schools for the benefit of millions of women, to whom, after they have received the

education necessary to citizenship, citizenship is denied?

It is urged that the government gets its return upon its investment in the education of women in the increased intelligence with which women rear their children, manage their homes and conduct the larger social affairs outside the boundary of their home life. I have no disposition to diminish or abate the government's recognition of such return, but no one has ever justified the governmental maintenance of schools and an enforced attendance upon them on the theory that the government has a right to compel men to be agreeable husbands and wise fathers and that it is responsible for teaching man how to conduct their own business with discretion and judgment. Quite in another tone it is urged that the schools are the fountains of the nation's liberties and that a government whose policy is decided by a majority of the votes cast by its men is not safe in the hands of uneducated voters.

Not only does the government expend millions annually to give a primary and secondary education to the girls whom as women it disfranchises, but to these millions it adds others for the collegiate education of the same class. The whole number of colleges and universities admitting both men and women to their undergraduate courses of study are 385. While there are 99 colleges whose opportunities are for men exclusively, there are 161 colleges in our country devoted exclusively to the education of women.

It is the political life of our nation which stands in the sorest need. Yet this is the only department of our national life which rejects the aid of women.

Philanthropy supported by their culture; the church is supported not alone by their devotion, but by their intelligent and public spirited service; charity would languish without them. The greatest social reforms of the age are being carried forward, some of them through the efforts of women exclusively, others by the united support of the women with the men.

Woman Suffrage Essential to the True Republic.

By United States Senator George F. Hoar.

A person to be entitled to share in the government of a state or country ought to love the state, ought to desire its welfare, and ought to be able to judge of the characteristics of the persons presented for their suffrage and of the wisdom or folly of the measures which are proposed from time to time before the people. Can you think of any other qualification than interest in the republic, love of the republic, capacity to choose its servants and capacity to judge of the measures upon which its welfare is to depend? It used to be said of a man who was a candidate for office that he had a "stake" in the country. Is there any stake in the country like that of a mother's interest in her children? Do not the mothers, the wives, the sisters, love the republic as well as their husbands or sons or brothers? Is there any doubt about that? Does any man claim that, in whatever other respect he may excel woman, in capacity of affection she is not his superior? Man values the objects of his affections for the dignity and comfort they can bestow upon him. Woman values herself only for the comfort which she can be to the object of her affections.

Then in regard to the capacity to judge of character, is not that woman's peculiar forte and characteristic trait? How often does it happen that the husband receives his word of warning from the wife, or a brother from the sister, in regard to the character of a person in whom he is likely to place undue confidence?

The object of the republic is not strength, not wealth, not glory, not em-

pire—it is the aggregate worth of the people. It is personal, not material. You value your neighbor not for his money, not for his physical strength, not for his genius, but for the qualities of courage, generosity, love, honor, truth; and you value your state just so far as it is an aggregate of persons possessing these qualities and just so far as it is the means to promote and increase them.

Now, will anybody deny that it is women on whom we depend to educate and foster the moral qualities of children and who possess the faculty of fostering and educating children so largely that it is admitted that it is rarely a child who loses his mother in early life grows up possessing them? The loss of a father is unimportant in comparison with that of a mother, who instills all these qualities into a child. Will anybody deny that she is equally capable with the husband and father in determining what measures and what policy in the state will result in the increase and promotion of these qualities in the aggregate of families and individuals that go to make up the republic?

So I say, judging by these tests—and no other or better test has ever been stated by philosopher, statesman or jurist—that the womanhood of America should have its choice recognized and weighed just as that of American manhood is recognized and weighed in governing the state.

It is said that there are many offices in the state for which woman is unfit. If this be so, all you have to do is not to elect her to them when she has the ballot. "What sort of chief justice would you get if you had a woman on the bench?" That is a question which

SENATOR GEORGE F. HOAR.

is put as a difficult and an impossible question to answer. A great part of my life has been spent in studying and watching the administration of justice in this commonwealth and trying to learn, if I could, something of the qualities which fit men to take a part in the administration of justice, and I declare that the longer I live the more thoroughly I am convinced of the superiority in arriving at the truth of what we call the intuitive and instinctive judgment, which is the faculty of women, over the logical method, which is the quality of the masculine intellect. The training and discipline our lawyers go through, in my judgment, tend after a time to unfit a man for an accurate determination upon a fact. The value which you place upon the institution of the jury is not merely or chiefly because the judge is not supposed to be as honest or as impartial or as just as the 12 jurymen; but it is because the experience of men has found that the gift of the practical man who looks into the witness' face, though he can never tell you why he believes or disbelieves him, is often better than all the reasoning of a Parnassus or a Marshall in getting at the truth.

Then it is said that the exercise of this function of voting by the women will destroy her purity and innocence, that it will expose her to the mob and the ruffianism and vice of great cities. We are asked how we would like to have our wives and daughters go down to the Battery in New York and try to put their ballots in the midst of one of those crowds through a hole in the shutter of a beer-shop. I do not see that this method of voting which men have after their own fashion adopted is the essential thing. I think the ingenuity of the Yankee nation can contrive methods enough of voting rather than go down in those crowds and put their votes through the window of a New York beer-shop.

No, my friends, this is prejudice and not reason with which we are contending. We must carry out our republicanism to its logical results. Women must stand by your side in the church, equals, or the church must go back to the time of the inquisition. She must stand by your side in the family, or you must go back to the time when she was a companion only for the beast that was in you. She must stand by your side in the school or college, or you must go back to the days of the Jesuit school and the monastery. She must stand by your side on equal in the states, or you must go back, or what is worse than going back, you must remain where you are.

I believe that every step in human civilization has been marked by the nearer approach of woman to her just and equal place of influence in the state. I believe that every such approach has at some time purified the home and rendered womanhood sweeter and more feminine. Everywhere she has "moved with us to our good." No nation, no city, no household, ever took a lofty place where the influence of woman did not inspire it with the heroic temper. And when she takes this new and final step, bringing to the service of the state her purity, her devotion, her insight, her faith, she will not only ennoble the state, but will elevate also

What'er of peace about our hearthstones clings,
What'er our household gods protect of dears,

Wrinkles Come

To many a face which should still be smooth and fair. Worry doesn't bring them. There are no cares and anxieties to furrow the face. They are the signs of physical suffering, graven by the hand of Pain. It is the saddest result of the diseases which affect the womanly organs that they write plainly the sad record of suffering on the face and form. The skin becomes sallow, the cheeks are sunken, the eyes look dull, the body falls away. No woman who values her health or good looks should neglect to use Dr. Pierce's Favorite Prescription for female weakness. It cures irregularity, inflammation, ulceration and female weakness. It lights up the complexion, and rounds out the sunken curves of the body.

"I take great pleasure in recommending Dr. Pierce's Favorite Prescription for female weakness," writes Mrs. Susannah Permeuter, of Pauls Store, Shelby Co., Texas. "I was troubled with bearing down pains in my back and hips six years, and I wrote to Dr. Pierce for advice. I tried his 'Favorite Prescription' and six bottles cured me. I feel like a new person, and I thank Dr. Pierce for my health. Life is a burden to any one without health. I have told a great many of my friends about the great medicines I took."

Dr. Pierce's Common Sense Medical Adviser, 1008 pages, sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for paper covered book, or 31 cents for cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.
